Director, Freedom of Information

Dear Brenda:

The NSDD-84 Task Force has found possibly classified information in publications by Henry Kissinger and Raymond L. Garthoff. On 17 January 1984, I sent to you a memo on four items taken from the Garthoff article, "Banning the Bomb in Outer Space," with a request for your assessment on whether or not the items were classified. Now, based on your suggestion yesterday, would you also confirm whether or not your office reviewed the Garthoff article prior to its publication. (U)

In the Kissinger case, we have reviewed White House Years and found three troublesome areas. The information of concern and the pages involved are as follows: (U)

As in the Garthoff case, could you please provide me with your assessment of the classification status of the information and confirm whether or not your office reviewed the Kissinger book, and specifically the above pages, if you did not get the entire manuscript prior to its publication. Your assistance in this matter is warmly appreciated.

Sincerely,
